

SCOTTISH MARINE RENEWABLES

STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA)

ENVIRONMENTAL REPORT

REPORT PREPARED FOR THE SCOTTISH EXECUTIVE BY:

FABER MAUNSELL AND METOC PLC

MARCH 2007

Table of Contents

Section A: Introduction Background and Method

Chapter A1: Introduction	1
A1.1 Introduction	1
A1.2 The Project	1
A1.3 Structure of the Environmental Report	2
A1.4 Introduction to Renewable Energy	3
A1.5 Background to Renewable Energy Policy in Scotland	4
A1.6 Environmental Protection	6
A1.7 Strategic Environmental Assessment (SEA)	6
A1.8 Study Limitations	9
Chapter A2: Project Description	11
A2.1 Project Overview	11
A2.2 The Marine Renewable Energy Devices	11
A2.3 The Study Area	13
A2.4 Commercial Sites Versus Test Sites	13
A2.5 The Scottish Electricity Distribution Network	14
Chapter A3: Scoping Summary	15
A3.1 Introduction	15
A3.2 Scoping Responses	15
A3.3 Scope of the Environmental Report	17
Chapter A4: Assessment Method	18
A4.1 Introduction	18
A4.2 Level 1 Assessment – Assessment Method	19
A4.3 Level 2 Assessment – Energy Resource Assessment and Cumulative Effects	28

Section B: Technology and Resource (Wave and Tidal)

Chapter B1: Introduction	1
B1.1 Approach	1
B1.2 Wave Resource	3
B1.3 Tidal Resource	4
Chapter B2: Device Information	5
B2.1 Introduction	5
B2.2 Device Types	5
B2.3 Device Characteristics	10
B2.4 Maintenance Requirements	16
Chapter B3: Development Size Assumptions	19
References	21

**Section C: Chapters C1 to C21 - Level 1 Assessment
(Chapters C1 to C21 are presented as separate documents)**

Chapter C1: Bathymetry	C1.1
C1.1 Introduction	1
C1.2 Baseline Environment	1
C1.3 Effects	2
C1.4 Confidence and Knowledge Gaps	2
References	3
Chapter C2: Geology, Seabed Sediments and Sediment Transport	C2.1
C2.1 Introduction	1
C2.2 Background	1
C2.3 Baseline Environment	2
C2.4 Potential Effects	10
C2.5 Sensitivity of Receptors	11
C2.6 Potential Significance of Effects	12
C2.7 Likelihood of Occurrence	14
C2.8 Mitigation Measures	14
C2.9 Confidence and Knowledge Gaps	15
C2.10 Residual Significance of Effects	18
References	19
Chapter C3: Marine and Coastal Processes	C3.1
C3.1 Introduction	1
C3.2 Baseline Environment	2
C3.3 Existing Knowledge Regarding Removal of Energy from the Environment	5
C3.4 Potential Effects	9
C3.5 Sensitivity	14
C3.6 Confidence and Knowledge Gaps	16
C3.7 Recommendations for Further Work	17
References	20
Chapter C4: Seabed Contamination and Water Quality	C4.1
C4.1 Introduction	1
C4.2 Baseline Environment	1
C4.3 Potential Key Effects	8
C4.4 Sensitivity of Receptors	12
C4.5 Potential Significance of Effects	12
C4.6 Mitigation Measures	14
C4.7 Likelihood of Occurrence	15
C4.8 Confidence and Knowledge Gaps	15
C4.9 Residual Significance of Effects	16
C4.10 Recommendations for Site Specific Survey and Monitoring	17
References	19
Chapter C5 Protected Sites and Species	C5.1
C5.1 Introduction	1
C5.2 Baseline Environment	1
C5.3 Effects	18
C5.4 Likelihood of Occurrence	19
C5.5 Mitigation Measures	19
C5.6 Confidence and Knowledge Gaps	20
C5.7 Recommendations for Survey and Monitoring	20
References	21

Chapter C6: Benthic Ecology	C6.1
C6.1 Introduction	1
C6.2 Baseline Environment	1
C6.3 Potential Effects	10
C6.4 Sensitivity of Receptors	13
C6.5 Potential Significance of Effects	16
C6.6 Mitigation Measures	21
C6.7 Likelihood of Occurrence	22
C6.8 Confidence and Knowledge Gaps	22
C6.9 Residual Effects	22
C6.10 Recommendations for Site Specific Survey and Monitoring	25
References	27
Chapter C7: Fish and Shellfish	C7.1
C7.1 Introduction	1
C7.2 Baseline Environment	1
C7.3 Potential Key Effects	5
C7.4 Sensitivity of Receptors	11
C7.5 Potential Significance of Effects	14
C7.6 Likelihood of Occurrence	19
C7.7 Mitigation Measures	19
C7.8 Confidence and Knowledge Gaps	20
C7.9 Residual Effects	22
C7.10 Recommendations for Future Baseline Survey and Monitoring	24
References	25
Chapter C8: Marine Birds	C8.1
C8.1 Introduction	1
C8.2 Baseline Environment	1
C8.3 Potential Effects	9
C8.4 Sensitivity of Receptors	14
C8.5 Potential Significance of Effects	16
C8.6 Mitigation Measures	20
C8.7 Likelihood of Occurrence	20
C8.8 Confidence and Knowledge Gaps	21
C8.9 Residual Significance of Effects	23
C8.10 Recommended Baseline Survey and Monitoring	24
References	27
Chapter C9: Marine Mammals	C9.1
C9.1 Introduction	1
C9.2 Baseline Environment	1
C9.3 Potential Effects	20
C9.4 Sensitivity of Receptors	27
C9.5 Potential Significance of Effects	28
C9.6 Mitigation Measures	33
C9.7 Likelihood of Occurrence	34
C9.8 Confidence and Knowledge Gaps	34
C9.9 Residual Significance of Effects	38
C9.10 Recommendations for Survey and Monitoring	39
References	41

Chapter C10: Commercial Fisheries and Mariculture	C10.1
C10.1 Introduction	1
C10.2 Baseline Environment	1
C10.3 Potential Key Effects	17
C10.4 Sensitivity of Receptors	22
C10.5 Potential Significance of Effects	24
C10.6 Likelihood of Occurrence	29
C10.7 Mitigation Measures	29
C10.8 Confidence and Knowledge Gaps	30
C10.9 Residual Significance of Effects	31
C10.10 Recommendations for Monitoring	33
References	34
Chapter C11: Marine and Coastal Historic Environment	C11.1
C11.1 Introduction	1
C11.2 Baseline Environment	1
C11.3 Marine Baseline Historic Environment	1
C11.4 World Heritage Sites	8
C11.5 Coastal Baseline Historic Environment	8
C11.6 Potential Key Effects	12
C11.7 Sensitivity	14
C11.8 Significance	14
C11.9 Mitigation Measures	16
C11.10 Likelihood of Occurrence	17
C11.11 Confidence and Data Gaps	18
C11.12 Residual Effects (Significance of Effects with Mitigation)	18
C11.13 Monitoring	19
References	20
Chapter C12: Cables and Pipelines	C12.1
C12.1 Introduction	1
C12.2 Baseline Environment	1
C12.3 Potential Key Effects	2
C12.4 Sensitivity of Receptors	3
C12.5 Potential Significance of Effects	3
C12.6 Likelihood of Occurrence	4
C12.7 Mitigation Measures	4
C12.8 Confidence and Knowledge Gaps	5
C12.9 Residual Effects	5
C12.10 Recommendations for Monitoring	5
References	6
Chapter C13: Military Activities	C13.1
C13.1 Introduction	1
C13.2 Baseline Environment	1
C13.3 Potential Key Effects	2
C13.4 Sensitivity of Receptors	2
C13.5 Potential Significance of Effects	3
C13.6 Likelihood of Occurrence	4
C13.7 Mitigation Measures	4
C13.8 Confidence and Knowledge Gaps	4
C13.9 Residual Significance of Effects	4
C13.10 Recommendations for Survey and Monitoring	5
References	6

Chapter C14: Disposal Areas	C14-1
C14.1 Introduction	1
C14.2 Baseline Environment	1
C14.3 Potential Key Effects	2
C14.4 Sensitivity of Receptors	2
C14.5 Potential Significance of Effects	3
C14.6 Mitigation Measures	4
C14.7 Likelihood of Occurrence	4
C14.8 Confidence and Knowledge Gaps	4
C14.9 Residual effects	5
C14.10 Recommendations for Monitoring	5
Chapter C15: Shipping and Navigation	C15-1
C15.1 Introduction	1
C15.2 Baseline Environment	1
C15.3 Effects	9
C15.4 Likelihood of Occurrence	20
C15.5 Mitigation Measures	21
C15.6 Confidence and Knowledge Gaps	21
C15.7 Residual Significance of Effects	22
C15.8 Recommendations for Survey and Monitoring	26
References	27
Chapter C16: Tourism and Recreation	C16-1
C16.1 Introduction	1
C16.2 Baseline Environment	1
C16.3 Potential Environmental Effects	12
C16.4 Sensitivity of Receptors	15
C16.5 Significance of Effect	17
C16.6 Likelihood of Occurrence	18
C16.7 Mitigation Measures	19
C16.8 Confidence and Data Gaps	20
C16.9 Residual Effects	21
C16.10 Summary	22
References	23
Chapter C17: Noise	C17-1
C17.1 Introduction	1
C17.2 Baseline Environment - Ambient /Background Noise	2
C17.3 Construction Noise	6
C17.4 Device Operation Noise – Sources	11
C17.5 Example Tidal and Wave Device Noise	16
C17.6 Effects of Array Geometry	18
C17.7 Impacts of Device Operation Noise	23
C17.8 Likelihood of Occurrence	26
C17.9 Mitigation Measures	26
C17.10 Confidence and Knowledge Gaps	28
C17.11 Recommendations for Survey and Monitoring	30
References	31

Chapter C18: Electric and Magnetic Fields (EMF)	C18-1
C18.1 Introduction	1
C18.2 Summary of COWRIE Research on EMF	1
C18.3 Electro Magnetic Fields: Definitions	2
C18.4 Baseline Environment – Ambient Background EMF	3
C18.5 Species Sensitive to Electric and Magnetic Fields	4
C18.6 Impacts of Construction - Electric and Magnetic Fields	11
C18.7 Electric and Magnetic Fields Produced During Device and Cable Operation	12
C18.8 Mitigations Measures	15
C18.9 Mitigation Measures	19
C18.10 Gaps in Information	19
References	21
Chapter C19: Seascape Assessment	C19-1
C19.1 Introduction	1
C19.2 Seascape Methodology	2
C19.3 Baseline Environment	6
C19.4 Effects on Seascape	11
C19.5 Mitigation Measures	21
C19.6 Likelihood of Occurrence	22
C19.7 Confidence and Data Gaps	23
C19.8 Residual Effects	23
C19.9 Summary	25
C19.10 Recommended Baseline Survey and Monitoring	26
References	27
Chapter C20: Onshore Grid Connection	C20-1
C20.1 Introduction	1
C20.2 Network Owners and Operators and their Environmental Obligations	1
C20.3 Existing Transmission Network	2
C20.4 Baseline Environment	2
C20.5 Components of the Grid Connection	2
C20.6 Potential Key Effects	3
C20.7 Sensitivity of Receptors	7
C20.8 Significance	8
C20.9 Mitigation Measures	10
C20.10 Likelihood of Occurrence	12
C20.11 Confidence and Data Gaps	12
C20.12 Residual Effects	13
Chapter C21: Decommissioning	C21-1
C21.1 Introduction	1
C21.2 Background to Decommissioning	1
C21.3 Decommissioning Standards	2
C21.4 Methods of Decommissioning	2
C21.5 Part 1: Effects of Decommissioning that are Similar to Installation	3
C21.6 Part 2: Effects Associated with the Removal of Structure from the Seabed	4
C21.7 Mitigation Measures	10
C21.8 Summary	11
References	12

Section D: Energy Resource Assessment and Cumulative Effects

Chapter D1: Introduction	1
D1.1 Chapter Structure	1
Chapter D2: Level 1 Assessment – Conclusions	2
D2.1 Introduction	2
D2.2 Level 1 Environmental Effects	2
D2.3 Area Specific Environmental Effects	19
Chapter D3: Energy Resource Assessment	22
D3.1 Introduction	22
D3.2 Approach to the assessment of the wave and tidal energy resource	22
D3.3 Method Used to Calculate the Potential Energy Resource	26
D3.4 Results of the Energy Resource Assessment	28
Chapter D4: Cumulative Effects	36
D4.1 Introduction	36
D4.2 Cumulative effects of wave and tidal devices	36
D4.3 Cumulative Effects Associated with Other Marine Developments	38

Section E: Informing the Future Development of Marine Energy

Chapter E1: Introduction	1
Chapter E2: Informing the Future Development of Marine Renewable Energy	2
E2.1 Introduction	2
E2.2 Key Issues Influencing the Future Development of Marine Renewable Energy	2
E2.3 Key Elements in Developing a Strategy to Support Marine Energy	3
E2.4 Key Issues for Consideration in Planning Individual Projects	5
Chapter E3: Site Specific Surveys	7
E3.1 Site Specific Surveys and Studies	7
Chapter E4: Monitoring Framework	9
E4.1 Introduction	9
E4.2 Approach to the Monitoring Framework	9
E4.3 Environmental Change	11
E4.4 Monitoring Framework	12
E4.5 Project Level Monitoring and Research Gaps	14
Chapter E5: Next Steps	17
E5.1 Consultation	17
E5.2 Further Information	17

Table of Tables

Section A: Introduction, Background and Method

Chapter A1: Introduction

Table A1.1 Requirements of the SEA Directive	9
Table A1.2 Limitation of the Scottish Marine Renewables SEA	9

Chapter A3: Scoping Summary

Table A3.1 Scoping of SEA Topics	17
----------------------------------	----

Chapter A4: Assessment Method

Table A4.1: Example of Summary of Effects on Fish and Shellfish	21
Table A4.2: Example of the Sensitivity to Potential Effects (Fish and Shellfish)	22
Table A4.3: Example of Significance Criteria (Fish and Shellfish)	23
Table A4.4: Example of Predicted Effects of Devices and the Potential Effect Significance	24
Table A4.5: Example of Residual Effect Significance	25

Section B: Technology and Resource (Wave and Tidal)

Chapter B1: Marine Resource Areas

Table B1.1: Summary of estimates of potential installed capacity (Carbon Trust studies)	2
Table B2.1: Wave devices	7
Table B2.2: Tidal devices	10
Table B2.3: Example dimensions of wave devices	12
Table B2.4: Summary of device characteristics	18
Table B3.1: Example wave device arrays	20

Chapter B2: Device Information

No Tables in this Section

Section C: Chapters C1 to C21 - Level 1 Assessment

(Chapters C1 to C21 are presented as separate documents)

Chapter C2: Geology, Seabed Sediment and Sediment Transport

Table C2.1: Summary of the Potential Effects on Geology	11
Table C2.2: Significance Assessment Criteria	12
Table C2.3: Potential Significance of Effects	14
Table C2.4: Mitigation Measures - Geology, Seabed Sediments and Sediment Transport	15
Table C2.5: Data Gaps - Geology, Seabed Sediments and Sediment Transport	16
Table C2.6: Potential and Residual Significance of Effects -	18

Chapter C3: Marine and Coastal Processes

Table C3.1: Summary of key data gaps and priorities for future research	18
-------------------------------------------------------------------------	----

Chapter C4: Seabed Contamination and Water Quality

Table C4.1: Munitions Disposal Sites in SEA Study Area	7
Table C4.2: Summary of Potential Effects on Water and Sediment Quality	11
Table C4.3 Sediment Assessment Criteria - Water and Sediment Quality	12
Table C4.4: Potential Significance of Effects – Seabed Contamination and Water Quality	13
Table C4.5: Mitigation Measures – Seabed Contamination and Water Quality	14
Table C4.6: Data gaps – Seabed Contamination and Water Quality	16
Table C4.7: Potential and Residual Significance of Effect	16

Chapter C5: Protected Sites and Species

Table C5.1: Special Areas of Conservation	3
Table C5.2: Special Protection Areas	6
Table C5.3: Ramsar Sites within the Study Area	9
Table C5.4: National Nature Reserves in the Study Area	14

Chapter C6: Benthic Ecology

Table C6.1: Marine UKBAP Habitats in the Study Area	2
Table C6.2: Sites Designated for Benthic Ecology in the Study Area	8
Table C6.3: Rare and Scarce Species Likely to be Found in the Study Area	10
Table C6.4: Summary of Potential Effects on Benthic Ecology	13
Table C6.5: MarLIN Definitions of Habitat Sensitivity	14
Table C6.6: Sensitivity of Benthic Habitats (based on UKBAP marine priority habitats)	15
Table C6.7: Significance Assessment Criteria - Benthic Ecology	16
Table C6.8: Potential Significance of Effects – Benthic Ecology	19
Table C6.9: Mitigation Measures	21
Table C6.10: Data Gaps – Benthic Ecology	22
Table C6.11: Potential and Residual Significance of Effects – Benthic Ecology	23

Chapter C7: Fish and Shellfish

Table C7.1: Key Finfish Species Inhabiting the Study Area	2
Table C7.2: Key Shellfish Species Inhabiting the Study Area	4
Table C7.3: Summary of Potential Effects on Fish and Shellfish	10
Table C7.4: Sensitivity of Marine Finfish to Impacts from Wave and Tidal Arrays	12
Table C7.5: Sensitivity of Marine Shellfish to Impacts from Wave and Tidal Arrays	13
Table C7.6: Significance Assessment Criteria - Fish and Shellfish	14
Table C7.7: Potential Significance of Effects – Fish and Shellfish	17
Table C7.8: Possible Mitigation Measures - Impacts on Fish and Shellfish	19
Table C7.10: Fish and Shellfish Impacts - Data Gaps	21
Table C7.9: Potential and Residual Significance of Effects - Fish and Shellfish	22

Chapter C8: Marine Birds

Table C8.1: Protected Areas for Bird Populations in the Study Area	6
Table C8.2: Summary of Potential Effects of Marine Birds	13
Table C8.3: Sensitivity of Birds to Collision Impacts	15
Table C8.4: Sensitivity of Marine Birds to Impacts from Wave and Tidal Device Arrays	16
Table C8.5: Significance Assessment Criteria - Marine Birds	16

Table C8.6: Potential Significance of Effects - Marine Birds	19
Table C8.7: Possible Mitigation Measures - Impacts on Birds	20
Table C8.8: Data Gaps - Marine Birds	22
Table C8.9: Potential and Residual Significance of Effects - Marine Birds	23

Chapter C9: Marine Mammals

Table C9.1: Seal Distribution in the Study Area Based on SMRU Aerial August Counts	4
Table C9.2: Grey Seal Colonies Known to SMRU	5
Table C9.3: Sites Designated for Seals within the Study Area	10
Table C9.4 Key cetacean species in the Study Area	12
Table C9.5: SAC Sites Designated for Cetaceans In, or Close to, the Study Area	15
Table C9.6 SACs in the Study Area Designated for, or Known to Contain Otters	19
Table C9.7: Summary of potential effects on marine mammals	27
Table C9.8: Sensitivity of Marine Mammals to Impacts from Marine Device Arrays	28
Table C9.9: Estimated Sensitivity to Collision Risk	28
Table C9.10: Significance Assessment Criteria - Marine Mammals	29
Table C9.11: Potential Significance of Effects – Marine Mammals	32
Table C9.12: Possible mitigation measures - Impacts on Marine Mammals	33
Table C9.13: Data Gaps - Marine Mammals	37
Table C9.14: Potential and Residual Significance of Effects - Marine Mammals	38

Chapter C10: Commercial Fisheries

Table C10.1: Summary of Potential Effects on Commercial Fisheries	21
Table C10.2: Summary of Potential Effects on Mariculture	21
Table C10.3: Sensitivity of Scottish Mariculture Species	23
Table C10.4: Significance Assessment Criteria Commercial Fisheries	24
Table C10.5: Significance Assessment Criteria - Mariculture	24
Table C10.6: Potential Significance of Effects – Commercial Fisheries	26
Table C10.7: Potential significance of effects - mariculture	28
Table C10.8: Mitigation Measures - Commercial Fisheries	30
Table C10.9: Mitigation Measures - Mariculture	30
Table C10.10: Commercial Fisheries Effects - Data gaps	31
Table C10.11: Summary of Potential and Residual Effect Significance – Fisheries	31
Table C10.12: Summary of Potential and Residual effect Significance – Mariculture	33

Chapter C11: Marine and Coastal Historic Environment

Table C11.1: Wrecks Protected Under the PWA (Part 1)	7
Table C11.2: Wrecks Listed as Controlled Sites in Scottish Waters	8
Table C11.3: SAMs within 5km of the Coast	9
Table C11.4: Potential Coastal Prehistoric Remains	10
Table C11.5: Potential Effects – Marine and Coastal Historic Environment	13
Table C11.6: Significance Assessment Criteria	15
Table C11.7: Potential Significance of Effects	16
Table C11.8: Mitigation Measures	17
Table C11.9: Data Gaps	18
Table C11.10: Potential and Residual Significance of Effects	18
Table C11. 11: Monitoring Requirements	19

Chapter C12: Cables and Pipelines

Table C12.1: Summary of Potential Effects on Cables and Pipelines	2
Table C12.2: Significance Assessment Criteria - Cables and Pipelines	3
Table C12.3: Potential Significance of Effects – Cables and Pipelines	4
Table C12.4: Mitigation Measures - Cables and Pipelines	4
Table C12.5: Potential and Residual Significance of Effects - Pipelines and Cables	5

Chapter C13: Military Areas

Table C13.1: Summary of Potential Effects - Military Exercise Areas	2
Table C13.2: Significance Assessment Criteria – Military Exercise Areas	3
Table C13.3: Potential Significance of Effects – Military Exercise Areas	3
Table C13.4: Mitigation Measures	4
Table C13.5: Potential and Residual effect Significance – Military Exercise Areas	5

Chapter C14: Disposal Areas

Table C14.1: Summary of Potential Effects - Disposal Sites	2
Table C14.2: Significance Assessment Criteria – Disposal Sites	3
Table C14.3: Potential Significance of Effects – Disposal Sites	4
Table C14.4: Mitigation Measures	4
Table C14.5: Potential and Residual Significance of Effects – Disposal Sites	5

Chapter C15: Shipping and Navigation

Table C15. 1: Vessel Types Using the Study Area	3
Table C15. 2: Vessel Densities, and Traffic Management Measures in the Study Area	4
Table C15. 3: Summary of Potential Effects - Shipping and Navigation	12
Table C15. 4: Significance Assessment Criteria - Navigation and Shipping	14
Table C15. 5: Potential Significance of Effects	17
Table C15. 6: Potential for Interaction between Navigation and Development Areas	20
Table C15. 7: Mitigation Measures – Shipping & Navigation	21
Table C15. 8: Potential and Residual Significance of Effects	23

Chapter C16: Recreation and Tourism

Table C16. 1: Most Popular Activities in Scotland Undertaken by Visitors	1
Table C16. 2: Rural Award Winning Beaches in 2006	3
Table C16. 3: Royal Yachting Association (RYA) Marinas and Yacht Havens	6
Table C16. 4: Sailing and Cruising Areas Identified by the RYA	6
Table C16. 5: SSAC Branches	8
Table C16. 6: BSAC Branches	9
Table C16. 7: PADI Branches	9
Table C16. 8: Some of the Bird Reserves in the Study Area	10
Table C16. 9: A Summary of Some of the Key Marine Wildlife Watching Areas	11
Table C16. 10: Summary of Potential Environmental Effects	15
Table C16. 11: Sensitivity of Participation in Tourist and Recreational Activities	16
Table C16. 12: Significance Assessment Criteria – Tourism and Recreation	17
Table C16. 13: Potential Significance of Effects - Tourism and Recreation	18
Table C16. 14: Standard Practice Mitigation Measures	19
Table C16. 15: Availability of Data	20
Table C16. 16: Potential and Residual Significance of Effects - Tourism and Recreation	21

Chapter C17: Noise

Table C17.1: Potential contributors to ambient noise in the study area	2
Table C17.2: Selected fish species' sensitivity to noise	9
Table C17.3: Impacts of pile driving noise on harbour seals and porpoise	10
Table C17.4: Impacts of pile driving noise on selected fish species	10
Table C17.5: Summary of information on installation methods other than piling	11
Table C17.6: Sources of noise from marine renewable energy devices	13
Table C17.7: Estimated underwater radiated tonal noise levels due to Pelamis hydraulic motors	18
Table C17.8: Noise level relative to that of a single device, at the centre device of an array, for various device configurations	22
Table C17.9: Maximum indicative ranges for arrays of 1 MW devices	25
Table C17.10: Mitigation measures – noise	27
Table C17.11: Marine mammals' species groups use of sound - knowledge gaps	29

Chapter C18: Electric and Magnetic Fields

Table C18.1: List of Electrosensitive Species in UK Coastal Waters	6
Table C18.2: List of Magnetoreceptive Species in UK Coastal Waters	9
Table C18.3: Sensitivity to Magnetic and Electric Fields	11
Table C18.4: Export Cable Features Which May Influence EMF Fields Produced	13
Table C18.5: Potential Mitigation Measures	19

Chapter C19: Seascape

Table C19.1: Criteria for Seascape Sensitivity	12
Table C19.2: Sensitivity to Change of Wave and Tidal Device Characteristics	13
Table C19.3: Landscape Designations	15
Table C19.4: Significance Assessment Criteria	17
Table C19.5: Potential Significance of Effect	19
Table C19.6: Potential and Residual Significance of Effect	24

Chapter C20: Grid Connection

Table C20.1: Potential Significance of Effects – Onshore Grid Connection	7
Table C20.2: Sensitivity of Land Based Receptors to Grid Connection	8
Table C20.3: Significance Assessment Criteria– Onshore Grid Connection	9
Table C20.4: Potential Significance of Effects – Onshore Grid Connection	10
Table C20.5: Mitigation Measures – Onshore Grid Connection	11
Table C20.6: Potential and Residual Significance of Effect	13

Chapter C21: Decommissioning

Table C21. 1: Similarities between decommissioning and installation	3
Table C21. 2: Summary of Effects Associated with Pile Removal	9
Table C21. 3: Possible Mitigation Measures	10

Section D: Energy Resource Assessment and Cumulative Effects

Chapter D2: Level 1 Assessment - Conclusions

Table D2.1: Key Effects Associated with Marine Biological Environment Topics	6
Table D2.2: Physical Constraints	12
Table D2.3: Key Receptors by SEA Development Areas	20

Chapter D3: Energy Resource Assessment

Table D3.1: Development Size Assumptions	23
Table D3.2: Physical Constraints	25
Table D3.3: Estimated Tidal Energy Resource	29
Table D3.4: Estimated Wave Energy Resource	32
Table D3.5: Summary of Estimated Potential Marine Energy Resource in the Study Area	34

Chapter D4: Cumulative Assessment

Table D4.1: Existing and Proposed Marine Developments	38
Table D4.2: Potential Areas for Cumulative Effect	39

Section E: Informing the Future Development of Marine Energy

Chapter E1: Introduction **1**

Chapter E2: Informing the Future Development of Marine Energy

Table E2.1: Informing Site Selection	5
--------------------------------------	---

Chapter E3: Site Specific Surveys **7**

Table E3.1: Summary of Site Specific Surveys That May be required at the Project Level	7
----------------------------------------------------------------------------------------	---

Chapter E4: Monitoring Framework **9**

Table E4.1: Monitoring Framework for Development of Marine Energy Developments	15
--------------------------------------------------------------------------------	----

Chapter E5: Next Steps **17**

Table E5.1: Forthcoming SEA Milestones	17
----------------------------------------	----

Table of Figures

Section A: Introduction, Background and Method

Chapter A1: Introduction

Figure A1.1: SEA Study Area	
Figure A4.1: SEA Assessment Method Flow Diagram	19

Section B: Technology and Resource (Wave and Tidal)

Chapter B2: Device Information

Figure B2.1: Examples of horizontal axis turbines	8
Figure B2.2: Example of a vertical axis tidal turbine	9
Figure B2.3: Example of a venturi type device	9

Section C: Chapters C1 to C21 - Level 1 Assessment

(Chapters C1 to C21 are presented as separate documents)

Chapter C1: Bathymetry

Figure C1.1: Bathymetry	
-------------------------	--

Chapter C2: Geology, Seabed Sediment and Sediment Transport

Figure C2.1: Seabed Surface Geology	
Figure C2.2: Sediment Transport Pathways	
Figure C2.3a: Distribution of Geological Review Sites in the Study Area	
Figure C2.3b: Distribution of Geological SSSI Sites in the Study Area	
Figure C2.3c: Distribution of Geological SSSI Sites in the Study Area (2)	

Chapter C3: Marine and Coastal Processes

Figure C3.1: Cliff Coastline Types	
Figure C3.2: Overview Dune Coastline Types	
Figure C3.3: Overview of Coastal Offshore Sand and Mud Areas	
Figure C3.4: Overview of Coastal Offshore Shingle, Gravel and Rock Platform Areas	
Figure C3.5: Deep Water Wavelength	7

Chapter C4: Seabed Contamination and Water Quality

Figure C4.1: Water quality and sediment contamination	
Figure C4.2: Potential munitions contamination sites	
Figure C4.3: Sites where munitions may migrate along the seabed	
Figure C4.4: Potential significance of effects from disturbance of munitions and disposal sites	

Chapter C5: Protected Sites and Species

- Figure C5.1: International Protected Sites in the Study Area - SACs, SPA and Ramsar Sites
- Figure C5.2: National Protected Sites in the Study Area - SSSIs and NNRs
- Figure C5.3: Potential Annex 1 Habitat Sites and Proposed SAC Sites
- Figure C5.4: Marine Consultation Areas 13

Chapter C6: Benthic Ecology

- Figure C6.1: Marine benthic ecological baseline
- Figure C6.2: Potential significance of direct substratum loss / species displacement effects on marine benthic ecology
- Figure C6.3: Potential significance of sediment smothering effects on marine benthic ecology
- Figure C6.4: Potential significance of reduction in wave exposure effects on marine benthic ecology
- Figure C6.5: Potential significance of reduction in water flow effects on marine benthic ecology

Chapter C7: Fish and Shellfish

- Figure C7.1: Fish Spawning Areas
- Figure C7.2: Fish Nursery Areas
- Figure C7.3: Finfish Distribution
- Figure C7.4: Shellfish Distribution
- Figure C7.5: Potential Significance of Sediment Smothering Effects on Fish and Shellfish
- Figure C7.6: Potential Significance of Decrease in Wave Energy Effects on Fish and Shellfish
- Figure C7.7: Potential Significance of Decrease in Tidal Energy Effects on Fish and Shellfish
- Figure C7.8: Potential Significance of Substratum Loss Effects on Fish and Shellfish

Chapter C8: Marine Birds

- Figure C8.1: The Distribution of SPA's Designated for the Protection of Birds in the Study Area

Chapter C9: Marine Mammals

- Figure C9.1a Distribution of Common Seals in the Study Area
- Figure C9.1b Distribution of Grey Seals in Study Area
- Figure C9.2a: Distribution of Cetaceans in the Study Area - 1
- Figure C9.2b Distribution of Cetaceans in the Study Area – 2
- Figure C9.3 Physical Disturbance Impacts on Seal Breeding and Non Breeding Colonies
- Figure C9.4: Estimated Distribution of Grey Seals at Sea C9-9

Chapter C10: Commercial Fisheries

- Figure C10.1: Distribution of Mackerel Catches by Scottish Vessels (tonnes) C10-4
- Figure C10.2: 2004 Distribution of Herring Catches by Scottish Vessels (tonnes) C10-5
- Figure C10.3: 2004 Distribution of Haddock Catches by Scottish Vessels (tonnes) C10-5
- Figure C10.4: 2004 Distribution of Cod Catches by Scottish Vessels (tonnes) C10-6
- Figure C10.5: 2004 Distribution of Whiting Catches by Scottish Vessels (tonnes) C10-7
- Figure C10.6: 2004 Distribution of Saithe Catches by Scottish Vessels (tonnes) C10-7
- Figure C10.7: 2004 Distribution of Monkfish Catches by Scottish Vessels (tonnes) C10-8
- Figure C10.8: Nephrops Grounds and Functional Units C10-9
- Figure C10.9: King Scallop Grounds and Management Areas C10-10
- Figure C10.10: Tracks of AIS Equipped Fishing Vessels (August 2006) C10-11
- Figure C10.11: Hebrides - Plot Fishing Vessels, MARICO Radar Surveys 2004, 28 Days C10-12
- Figure C10.12: Fishing Effort Expended in 2004 C10-12
- Figure C10.13: VMS Data Plot 2005 - Quarter 1 C10-13

Figure C10.14: VMS Data Plot 2005 - Quarter 2	C10-13
Figure C10.15: VMS Data Plot 2005 - Quarter 3	C10-14
Figure C10.16: VMS Data Plot 2005 - Quarter 4	C10-14
Figure C10.17: Marine Finfish Farms	
Figure C10.18: Marine shellfish Farms	

Chapter C11: Marine and Coastal Archaeology

Figure C11.1: Marine Archaeology and Wrecks	
---------------------------------------------	--

Chapter C12: Cables and Pipelines

Figure C12.1: Pipelines and cables	
Figure C12.2: Impacts - pipelines and cables	

Chapter C13: Military Exercise Areas

Figure C13.1: Military Practice and Exercise Areas	
Figure C13.2: Significance of Effects Military Practice and Exercise Areas	

Chapter C14: Disposal Sites

Figure C14.1: Disposal Sites in the Study Area – Active within the Last 10 Years	
Figure C14.2: Significance of Impacts – Permanent Access Disruption during Device Operation	

Chapter C15: Shipping and Navigation

Figure C15.1: Overview of Shipping Management Measures and Recognised Sea Lanes	
Figure C15.2: Tanker Routing	
Figure C15.3: Dry Cargo Vessel Routing	
Figure C15.4: Passenger Vessel Routing	
Figure C15.5: Fishing Vessel Routing	
Figure C15.6: Other Vessel Routing	
Figure C15.7: RYA Sailing Routes and Areas	
Figure C15.8: Locations Mentioned in the Report Text	

Chapter C16: Recreation and Tourism

Figure C16. 1: The Location of Identified EU Standard Scottish Bathing Waters	4
-------------------------------------------------------------------------------	---

Chapter C17: Noise

Figure C17.1: Composite ambient noise spectrum	4
Figure C17.2: Ambient Noise	
Figure C17.3: Predicted ambient noise levels in the SEA study area owing to surface-generated noise and thermal noise, for wind speeds of 3 knots and 30 knots	12
Figure C17.4: Summary of the main noise sources associated with different device types. The greyscale indicates the relative noise level in each part of the spectrum, with black indicating the highest level and white indicating no or negligible noise.	15
Figure C17.5: Internal view of one of the Pelamis power conversion module	17
Figure C17.6: Noise levels relative to the noise of a single device, at the centre of a linear array as a function of the separation between devices	19

Figure C17.6: Noise levels relative to the noise of a single device, at the centre of a linear array as a function of the separation between devices	20
Figure C17.7: Noise level relative to the noise of a single device, at the centre of a linear device array, as a function of the number of devices in the array	21
Figure C17.8: Noise level relative to the noise of a single device, at the centre of a square device array, as a function of the separation between devices	22
Figure C17.9: In-water threshold of hearing for fish, man and marine mammals. Also shown are typical ambient noise levels and the generic threshold curve	24

Chapter C18: Electric and Magnetic Field (EMF)

Figure C18.1: Pipeline and Cables

Chapter C19: Seascape

Figure C19.1: Seascape Types

Figure C19.2: Effects of On-Surface Linear Structures on Seascape

Figure C19.3: Effects on On-Surface Point Structures

Figure C19.4: Overview of Key Stages in Seascape Assessment Process

Table of Appendices

Section A: Introduction, Background and Method

Appendix A1.1: Steering Group

Section C: Level 1 Assessment Chapters

Appendix C4.A – Munitions Contamination of Marine Renewable Energy Sites in Scottish Waters: A Study for the Scottish Executive (QinetiQ, January 2007)

Appendix C5.A: SSSI and GCR Site Details

Appendix C6.A: The benthic environment of the North and West of Scotland and the Northern and Western Isles: sources of information and overview

Appendix C15.A – Study 3: Shipping and Navigation, Marine and Risk Consultants Ltd, February 2007.

Appendix C17.A: Underwater Noise Study Supporting Scottish Executive Strategic Environmental Assessment of Marine Renewables, QinetiQ, January 2007

Appendix C19.1: Landscape Character Assessment Review

Appendix C19.2: Seascape Character Types

Appendix C19.3: Seascape Sensitivity

Section D: Energy Resource Assessment and Cumulative Effects

Appendix D2.1: Development Area Summary Tables
